

Día de los Muertos

The day of the dead is a long tradition of art depicting skeletons in mexico where families welcome back the souls of their closed one. Basically this theme is all about life & death.

The designer try to represent behind the deepmeaning of this tradition.

Flower, butterflies & skulls are symbols of this day.

Flower & dust, love & loss; our lives are filled with both..

This concept based collection will help to understand that life is short so enjoy every moment with the love one& create happy memory as much as you can.

The designer use the theme symbols as motif, 3d pattern manipulation, print.

It's a new way of spring.

A fashion full of tradition.
